PROFESSIONAL SUMMARY

React Native Developer / Mobile Application Developer with **3+ years of experience** building, testing, and maintaining cross-platform mobile applications for Android and iOS. Published **3 production mobile applications** on the Google Play Store across HRMS, CRM, Society Management, Tax Management, and POS domains, serving enterprise-level user bases. Skilled in React Native, JavaScript (ES6+), TypeScript, REST API integration, Redux, Firebase, Firebase Cloud Messaging (FCM), Socket.IO, WebSockets, real-time communication, authentication, GPS-based location tracking, AI-powered features, and Android Native Module development using Kotlin. Experienced in Agile/Scrum development, unit testing and debugging, reusable component design, third-party service and payment gateway integration, production issue troubleshooting, performance optimization, and the full software development lifecycle (SDLC) from development through QA, release, and post-deployment support.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Kotlin, Dart, C++, SQL

Mobile & Frontend: React Native, Flutter, Android, iOS, React.js, HTML5, CSS3, Bootstrap, Native Modules

State & Data: Redux, Context API, REST APIs, Axios, Socket.IO, WebSockets, SQLite, AsyncStorage

Backend & Cloud: Firebase, Firebase Cloud Messaging (FCM), Firebase Authentication, Microsoft Azure

Tools & Platforms: Android Studio, Xcode, VS Code, Postman, Git, GitHub, GitLab, Google Play Console

Generative AI Tools: Claude, ChatGPT, GitHub Copilot, Gemini, Google Antigravity

Methodologies: Agile, Scrum, SDLC, Debugging & Troubleshooting, App Store Deployment

PROFESSIONAL EXPERIENCE

React Native Developer

LeadChain Systems

March 2024 – Present

Greater Noida, Uttar Pradesh

- Developed and supported **3+ cross-platform React Native applications** for HRMS, CRM, POS, Tax Management, and Society Management domains across Android and iOS, serving **100+ active users**.
- Integrated **50+ REST APIs** using Axios with Redux for authentication, payroll, attendance, reports, and application data; configured **Firebase Cloud Messaging (FCM)** and Socket.IO for real-time notifications and communication.
- Built **15+ reusable UI components** and features including GPS-based attendance tracking, AI-powered assistance, role-based access control, document uploads, and configurable dynamic forms.
- Used AI coding assistants including **Claude, GitHub Copilot, and Google Antigravity** to accelerate feature development, automate boilerplate code, and speed up debugging cycles across all production applications.
- Optimized **5+ Android Native Modules** using Kotlin, improving application performance and resolving **10+ production issues** and third-party integration bugs.
- Released **3 production mobile applications** on the Google Play Store, contributing to unit testing, QA, releases, and Agile/Scrum development cycles.

Associate Developer

The Local Sandbox

September 2023 – February 2024

- Designed responsive web applications using **React.js, JavaScript (ES6+), HTML5, CSS3, and Bootstrap**, creating **10+ reusable UI components** to improve development efficiency.
- Consumed **15+ REST APIs**, delivered application features, and debugged and resolved UI issues, improving application functionality and performance.
- Collaborated with a cross-functional team of **5+ designers and developers** using Git and GitHub in an Agile/Scrum environment, participating in **bi-weekly sprint planning** and code reviews for feature development and delivery.

PROJECTS

Taxlin | React Native, REST APIs, Razorpay, PayU, POS

Live App: play.google.com/store/apps/details?id=com.leadchain.taxlin

- Built a tax and business management application serving **20+ active users**, covering sales, purchases, inventory, invoice generation, GST compliance, and POS workflows.
- Integrated **Razorpay** and **PayU** payment gateways for secure online payment processing and multiple payment methods.
- Implemented authentication, invoice generation, document management, inventory tracking, and **15+ reusable UI components** for REST API-based data synchronization.

HRMTree | React Native, REST APIs, GPS Tracking

Live App: play.google.com/store/apps/details?id=com.leadchain.hrmtree

- Designed a Human Resource Management application serving **50+ active users**, covering employee management, attendance, recruitment, asset management, goals, resignation workflows, payroll, and reports.
- Configured **GPS-based attendance and geofencing** with shift-based check-in/check-out and real-time location validation.
- Synchronized **25+ REST APIs** for employee records, leave, payroll, recruitment, reports, and data synchronization across HR modules.

Teampage | React Native, CRM, REST APIs, Socket.IO, Kotlin

Live App: play.google.com/store/apps/details?id=com.leadchain.teampage

- Built a CRM application serving **15+ active users**, covering leads, opportunities, contacts, tasks, tickets, products, quotations, documents, and customer workflows.
- Enabled **real-time chat using Socket.IO** for instant message delivery and communication between users.
- Deployed **GPS-based field employee tracking** with check-in/check-out and location validation for on-site customer visits.
- Applied Claude and GitHub Copilot to prototype and refine **Kotlin Native Modules** for post-call overlays, allowing users to convert completed calls into leads, opportunities, tasks, or support tickets.

Society Flow | React Native, REST APIs, AI Integration, Face Recognition

- Developed a society management application covering visitor management, resident communication, events, community groups, emergency alerts, and daily operations.
- Implemented **AI-powered facial recognition** for visitor verification and enabled real-time visitor tracking and notifications.
- Built event scheduling, community communication, emergency alerts, and resident assistance features using React Native and REST APIs.

EDUCATION

B.Tech, Computer Science and Engineering

2020 – 2024

Raj Kumar Goel Institute of Technology, Ghaziabad, Uttar Pradesh

CGPA: 8.2

CERTIFICATIONS & TRAINING

- Introduction to Front-End Development – Meta (2024)
- Back-End Development – Meta (2024)
- Web Development Internship – CodeClause (2023)

ACHIEVEMENTS

- Shipped and supported **3 production mobile applications** on the Google Play Store.
- Delivered enterprise-grade mobile applications across HRMS, CRM, POS, Tax Management, and Society Management domains.
- Achieved a **4-Star** rating in C++ on HackerRank.
