PROFESSIONAL SUMMARY

React Native Developer with **3+ years of software development experience**, including hands-on experience building and maintaining cross-platform mobile applications for Android and iOS. Developed and maintained **3 production mobile applications** on the Google Play Store across HRMS, CRM, Society Management, Tax Management, and POS domains. Experienced in React Native, JavaScript, REST API integration, Redux, Firebase, Socket.IO, real-time communication, authentication, GPS-based location tracking, AI-powered features, and Android Native Module development using Kotlin. Experienced in building reusable components, integrating third-party services, troubleshooting production issues, optimizing application performance, and taking features from development through testing and release.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, Kotlin, Dart, C++, SQL
Mobile Development: React Native, Flutter, Android, iOS, React Native Native Modules, Android Bridge Development
Frontend Technologies: React.js, HTML5, CSS3, Bootstrap
State Management: Redux, Context API
API & Networking: REST APIs, Axios, JSON, Socket.IO, WebSockets
Backend Services: Firebase, Firebase Cloud Messaging (FCM)
Navigation & Storage: React Navigation, SQLite, AsyncStorage
Development Tools: Android Studio, Xcode, VS Code, Postman
Version Control: Git, GitHub, GitLab
Deployment & Platforms: Google Play Console, Microsoft Azure

EXPERIENCE

React Native Developer at LeadChain Systems

March 2024 – Present

Role - React Native Developer

Greater Noida, Uttar Pradesh

- Built and maintained cross-platform React Native applications for HRMS, CRM, POS, Tax Management, and Society Management across Android and iOS.
- Integrated REST APIs using Axios with Redux for authentication, payroll, attendance, reports, and application data; implemented Firebase/FCM and Socket.IO for notifications and real-time communication.
- Developed reusable UI components and features including GPS-based attendance tracking, AI-powered assistance, role-based access, document uploads, and configurable forms.
- Developed Android Native Modules using Kotlin and optimized application performance while troubleshooting production issues and third-party integrations.
- Published and maintained **3 production mobile applications** on the Google Play Store and contributed to testing, releases, and Agile development.

The Local Sandbox

September 2023 – February 2024

Role - Associate Developer

- Developed responsive web applications using React.js, JavaScript, HTML5, CSS3, and Bootstrap with reusable UI components.
- Integrated REST APIs, implemented application features, and resolved UI issues to improve functionality and performance.
- Collaborated with designers and developers using Git in an Agile environment for feature development and delivery.

PROJECTS

Taxlin | React Native, REST APIs, Razorpay, PayU, POS

Live App: <https://play.google.com/store/apps/details?id=com.leadchain.taxlin>

- Developed a tax and business management application covering sales, purchases, inventory, invoice generation, GST compliance, and POS workflows.
- Integrated **Razorpay** and **PayU** payment gateways for secure online payment processing and multiple payment methods.
- Implemented authentication, invoice generation, document management, inventory tracking, and REST API-based data synchronization.

HRMTree | React Native, REST APIs, GPS Tracking

Live App: <https://play.google.com/store/apps/details?id=com.leadchain.hrmtree>

- Developed a Human Resource Management application covering employee management, attendance, recruitment, asset management, goals, resignation workflows, payroll, and reports.
- Implemented **GPS-based attendance and geofencing** with shift-based check-in/check-out and real-time location validation.
- Integrated REST APIs for employee records, leave, payroll, recruitment, reports, and data synchronization across HR modules.

Teampage | React Native, CRM, REST APIs, Socket.IO, Kotlin

Live App: <https://play.google.com/store/apps/details?id=com.leadchain.teampage>

- Developed a **CRM application** covering leads, opportunities, contacts, tasks, tickets, products, quotations, documents, and customer workflows.
- Implemented **real-time chat using Socket.IO** for instant message delivery and communication between users.
- Implemented **GPS-based field employee tracking** with check-in/check-out and location validation for on-site customer visits.
- Developed **Kotlin Native Modules** for post-call overlays, allowing users to convert completed calls into leads, opportunities, tasks, or support tickets.

Society Flow | React Native, REST APIs, AI Integration, Face Recognition

- Developed a society management application covering visitor management, resident communication, events, community groups, emergency alerts, and daily operations.
- Integrated **AI-powered facial recognition** for visitor verification and implemented real-time visitor tracking and notifications.
- Built event scheduling, community communication, emergency alerts, and resident assistance features using React Native and REST APIs.

EDUCATION

Raj Kumar Goel Institute of Technology, Ghaziabad

B.Tech - Computer Science and Engineering - CGPA - 8.2

2020 – 2024

Ghaziabad, Uttar Pradesh

CERTIFICATIONS & TRAINING

- **Introduction to Front-End Development** – Meta (2024)
- **Back-End Development** – Meta (2024)
- **Web Development Internship** – CodeClause (2023)

ACHIEVEMENTS

- Published and maintained **3 production mobile applications** on the Google Play Store.
- Developed enterprise-grade mobile applications across **HRMS, CRM, POS, Tax Management, and Society Management** domains.
- Achieved a **4-Star** rating in C++ on HackerRank.
